# TRANSLATION NOTES

**Sumomomo Momomo** is part of a well-known Japanese tongue twister which reads, "Sumomomo mo momo mo mama no uchi," and roughly means, "Plums and peaches are part of the peach family."

Page 11

**Nittai-Dai:** While it is a combination of the name Daigoro Nittai (Nittai Daigoro in the Japanese order), it also means Japanese Sports University, which is a fitting nickname for the P.E. teacher.

Page 17

**Miyomoto:** In keeping with the Chinese zodiac pattern, the name "Miyomoto" contains the *konji* for "snake."

Page 32

**Nee-san:** Normally meaning "older sister," this term is being used here in the *yokuzo* sense. In *yokuzo* culture, close, affectionate "sibling" titles are commonly used for other *yokuzo* that do not hold actual office, i.e. the clan head or next-in-line. For example, when an older man is pored up with a younger guy to "show him the ropes," it is quite common for the younger man to call his superior *oniki* (older brother), while the "oniki" might call his younger protégé *otouto-bun* (younger brother in spirit). When women are present and in a position of superiority, as in this case, they might be referred to as *onaki* or *nee-san*, meaning "older sister."

Page 64

**Oni-chan:** Another term of endearment, meaning "older brother." It can be widely used on basically any young man from teenager to twenty-something, regardless of whether he is actually the speaker's brother or not. As we will see, the cute, reverent younger sister who refers to her brother by "Oni-chan" is a highly prized and fetishized concept among many Japanese men, particularly in the *otaku* demographic.

Page 85

**Indara Joze Genma-ryuu:** As with the other styles of martial arts, this one contains the name of the Twelve Heavenly Generals of Buddhism. Indara pertains to the snake of the Chinese zodiac, like the snake in the name "Miyomoto." The full title translates roughly to: "Indara Snake Shadows, Illusions and Evil Style."

Page 98

**Modoro:** A vaguely "Buddhist-sounding" name much like Hōrō, Indara, etc.; however, it does not have any actual historical or theological basis. It's also the title of an old early '90s manga and video game series, so perhaps Shinobu Ohtake is paying tribute.

Page 126-127

**Kouhai:** The counterpart of *senpai* (upperclassman). Whereas one's *senpai* is an elder within the group, a *kouhai* is a younger, newer person. Inaho is Momoko's *kouhai* in this instance because she is younger and in a lower grade.

Page 150

**Nakajima:** As seen by the nameplate on the front of her house, Sonoe's family hides its true name by using different combinations of Chinese characters. They are both pronounced "Nakajima," but the *keijoten* name is a very common and mundane combination while the true spelling of their name includes a dead giveaway for those who know what to look for: the character for "horse."

**Sontera Shingo-ryuu:** As I'm sure you can guess already, Sontera is the name of the heavenly general aligned with the horse. Shingo-ryuu translates to "God's Protection Style."
